Nederland: Bart van der Linden and colleague
Italy: Ilaria Castiglione and colleague
Denmark: Lene Vestergaard, Jesper Villadsen,
Michael Grube Andersen and Thomas Visby

Visions for all groups:

During the last decades, life in most western societies has gradually changed from living in small scale uni-cultural social groups (family, church, town, etc.) to a much more individual lifestyle in a multicultural society, backed up by some kind of social security system, which has been implemented in a top-down way by national politics.

Combined with this there are in these years a strong need for ACTIVE CITIZENSHIP in the civil society to address the quality of life on local, national and international level.

Missions for all groups:

In the area around Vester Skerninge, Denmark, 8 new civil activities have addressed 8 different challenges which are real life challenges to make their work in civil society better.

All students shall during the project meeting in international groups of 4 go through a workflow to come up with realistic and relevant solutions of these challenges.

The innovative WORKFLOW

How to get from a detected need to the launching of a valuable solution?

During the meeting in Denmark, we will follow these phases:

PHASE 1: NEED

- description of the challenge
- THIS PHASE HAS BEEN DESCRIBED BEFORE THE MEETING

PHASE 2: VISIT ORGANISATIONS (MONDAY)

- before visit: Trough webpages to get as much information of the organisation as possible
- visit and interview organisation - use the interview guideline

PHASE 3: UNDERSTAND CHALLENGE (TUESDAY)

- be sure to understand challenge and make further research (desk/field)

PHASE 4: VISIONS/SCENARIOES (TUESDAY)

- make a vision that can solve the challenge. Which goals and objectives are connected to this vision.
-

PHASE 5: RESOURCES (THUESDAY)

- analysing the need in the organisation for resources to implement the vision - people, competencies, economy

PHASE 6: ACTION PLAN (THUESDAY)

- develop concrete solution - what to do, when to do, budget

PHASE 7: PRESENTATION (FRIDAY)

- make a presentation of 5-7 minutes. A spokesman of the organisation and the rest of the participants in the project meeting will in 3-5 minutes discuss and give feedback to each group.

What to remember??

Individual:

1. Warm clothes for walking outside (check the weather forecast temperature and wind)
2. Clothes for indoor physical activities (floorball)
3. Clothes for handcraft work shop (work with ink)
4. If you can, bring a laptop/tablet for the workflow.
5. GOOD MOOD. We are very much looking forward to get to know you...

School:

1. Bring small examples of local food for the diner at the carnival friday evening.
2. Prepare an assembly of 10-15 minutes of the topic: Why is this project important to you? Projector and speakers available.

SEE YOU ALL IN DENMARK!!

Lene, Jesper, Michael and Thomas
